Rotary Club of Kidsgrove

Founded on 15 January 1969 and presented with its charter on 2 July the same year, the Rotary Club of Kidsgrove (RCK) has been active within the community whether fundraising, volunteering or helping out local projects for over 40 years. The club is also part of District 1210 within Rotary International in Britain and Ireland.

Originally meeting in the Masonic Hall and Institute in the town, the group now gets together at the Bleeding Wolf, Scholar Green.

During November RCK hold a bonfire night and fireworks at Clough Hall Park and during December they can be seen on the streets of Kidsgrove with their Santa float, collecting for local good causes.

In April 2012 RCK were also announced as the Rotary International in Britain and Ireland winners of the Club Online Presence Award. This was the first time the award has been presented and recognises the achievements the group have made through their website and a variety of social media avenues in the year.
